Model 204

E-COATING FOR MAXIMUM DURABILITY

Even the best designed and fabricated products can fall prey to the effects of corrosion if not adequately protected. One of the most successful corrosion resistance combinations is the application of electrocoat (e-coat) as a primer and polyester powder as a top coat.

Paris Equipment Manufacturing Ltd. uses an e-coat primer and a super durable polyester top coat to enhance the appearance and durability of its products. After cleaning and sealing in a 10-stage wash system, PEML's benches and trash receptacles are immersed in an e-coat bath where electrolysis ensures that the primer is deposited in all joints and welds. This special combination of super durable powder top coat, over an e-coat primer, provides an “automotive quality” finish on its products.

Please Contact Your PEML Representative For More Information

Product Warranty Statement: Due to the wide range of product offerings, please contact our head office, or your local PEML representative for our complete comprehensive warranty statement.

Loss or Damage in Transit: A signed bill of lading is our receipt from a carrier that our shipment to you was complete and in good condition. Before you sign, please check this bill of lading carefully when the shipment reaches you to make sure there are no damages or shortages. Once the shipment leaves our plant, we are no longer responsible for any damage, loss, or shortages.

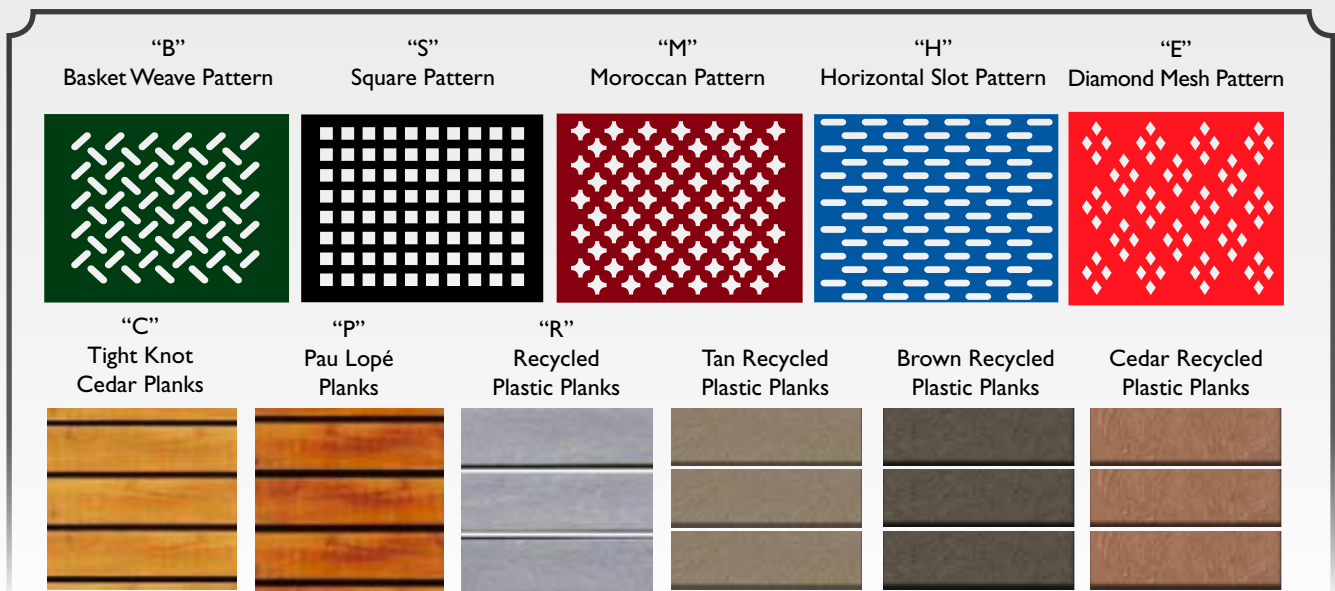

Polyethylene Coating: Typically provided on the perforated steel and expanded steel mesh surfaces of PEML Street Furniture and Park Amenities.

Polyester Powder Coating: Typically provided on Park Amenity frames and on some Site Furnishings.

Hot Dip Galvanized Coating: Typically provided on Park Amenity 2-3/8" dia. frames.

Colour samples featured in this catalogue are for reference only. If required, please contact PEML for colour accurate samples.

In order to honour our commitment to quality and safety, PEML reserves the right to make changes to any product shown in this catalogue without notice.
